

## PRODUCT NOTIFICATION

### TM2 connection

### INFORMATION NOTE REGARDING VAM CDS and TM2 double shoulder connection

To optimize interchangeability, the current VAM Drilling TM2 connection is being replaced by the new VAM CDS connection.

VAM CDS (Compatible Double Shoulder) is also a high performance rotary double shoulder connection designed and licensed by VAM Drilling. It is compatible and fully interchangeable with TM2 except in 3 sizes ( TM 26, TM2 31, TM2 6 5/8 FH) These 3 sizes will continue to be supported as TM2. The VAM CDS connection is also fully compatible with all sizes of GPDS or DSTJ.

The current workshops granted with a VAM licence for TM2 and/or VAM EIS are qualified to repair and machine VAM CDS connection.
