

## I-Box

The VAM Drilling I-Box has been designed to help our clients reveal any possible problems while drilling which could affect the connections.

What the VAM Drilling I-Box allows users to identify on the rig site:

- OVERTORQUE → Nose belling
- EXCESS OF TENSION → Counterbore expansion
- GALLING → Thread pitch

The I-Box is designed for information purposes only. VAM Drilling assumes no responsibility or liability for loss, damage or injury resulting from the use of this material.
