**Re:** Licenses 5CT-0245; 7-1-0104; 5DP-0045

API's goal is to complete the renewal process to coincide with the expiration date of your licenses. However, the process has been delayed.

**The expiration date of your current licenses has been extended until November 23, 2011.**

If your organization has not submitted the required documentation, please do so at this time. However, if your audit has not been scheduled and/or performed, an API auditor will contact you shortly. Please note that we will notify you of the results of all pending reviews within a few weeks.

Just as the demand for oil and natural gas has increased over the last several years, so has the call for monogrammed equipment and for API Certification. As a result, our processing times have increased considerably, but we are working very hard to keep up with new demands and we are taking all steps possible to reduce turnaround time.

Regards,
